## About The Tool - TALENT ACQUISITION COMPANION

A tool which parses information from a resume using natural language processing and finds the keywords, cluster them onto sectors based on their keywords. And lastly show recommendations, predictions, analytics to the applicant based on keyword matching.

How to use it: -

About -

Welcome to our Resume Analyzer tool! This is your entry point into an innovative platform designed to enhance your career prospects. Here, you'll find an overview of what our tool can do and how it can assist you in improving your resume and professional profile. Dive in to learn more about the features and functionalities that make our tool unique.

Admin -

The Admin page is the heart of our tool's data management system. Here, authorized users can handle all aspects of data processing and analysis. This page provides access to critical functions such as data entry, updating records, and managing user profiles. It ensures that all data is accurately processed and securely handled to deliver the best possible insights and recommendations.
